" The Board invites attention to its reference No.120-K3/43 dated 15-2-1944 in which proposals were sent to Government for notifying the rationed articles in respect of Hospet municipality. The Government were pleased to approve the Board's proposals that rationing might be commenced from 27-2-1944 with rice alone as the rationed article as the Collector had not by then built up the quantity required as buffer stock of cholam. Rationing of rice is working since 27-2-1944. The Rationing Officer Hospet now reports that there is stock of "sajja" available for use in the rationed area. The Board requests that "sajja" may also be declared as one of the rationed articles. The appended notifications may be approved and published in the next issue of the Fort St.George Gazette.

2. The Board also requests that a local seer may be adopted as the scale of rations per adult per day for "sajja" in the Hospet municipality and its suburban areas.
